

DR0001 - 35 mm DIN Rail LED Pilot/Indicators

Features

- Robust modular LED design for extended service life
- Low current demand ~10 mA per LED channel
- Mounts and locks to a standard 35 mm DIN rail
- 5 27 V AC/DC Bi-Polarity Operation
- Single point common terminal for all LED channels
- LED colors for each indicated channel are configurable
- Available in 1 6 LED channels per block
- Blocks can be stacked end to end to any desired light count

Ordering Information

Part Numbering

DR0001 - X - XX (i.e. DR0001-4-RR)

X = Number of LED Channels

XX = LED Pair colors each channel (+ , - voltages respectively applied to a channel)

Common part numbers listed below:

(Other configuration are available on our website link located at bottom on each page)
